

The CP 6 & CP 66 scabblers are ideal tools for cleaning and roughening concrete and construction joints. They can also be used to produce ornamental or contrasting finishes on road and building structures. With their different handle designs, CP 6 is more suitable when working on large surface areas whereas the CP 66 is mainly used for hard-to-reach areas.

- Lightweight, compact tool with contoured grip handle - reduces operator fatigue; increases output
- Tungsten carbide-tipped pistons - last longer; are easily replaced
- Back head grip - gives in-line thrust
- Chamfered cylinder block - increases visibility if the work piece permitting close-up operation in corners

<b>Description</b>		CP 0006 Scabbler
<b>Part no</b>		T022137
<b>Weight</b>	kg	4,5
<b>Length</b>	mm	410
<b>Width</b>	mm	110
<b>Height</b>	mm	200
<b>Air consumption</b>	l/s	13
<b>Air inlet</b>	inch	1/2
<b>Stroke</b>	mm	25
<b>No. and type of pistons</b>		Three 4-point carbide tipped pistons
<b>Blows per minute</b>		3000
<b>Piston ref. no</b>		F 064604
<b>Comments</b>		Back head handle
